MR. BRYAN AND THE LIQUOR QUESTION.

William J. Bryan will speak in Misouri in support of the movement for state-wide prohibition, to be voted on next November, according to an announcement made in Epringfield yesterday by F. U. Heffernan, vice-president of the Misscuci constitutional amendnent association.

Mr. Bryan returned to Lincoln, Neb., yesterday from his South American trip, and was greeted at the depot by a large delegation of turiness men and members of his family. He was very glad to get back home. America was the best country ever, he said, and sill of the fauna he gathered were sent him alive.

In a statement prepared for the newspapers, Mr. Bryan said there was no excuse for the misrepresentation of his attitude on the liquor question. He com-plained that out of discussions he had printed of various phases of the question, an effort had been made to show that he was seeking to make prohibition a national issue. This was not true, and he did not, in his time, even expect it to become such an issue. He severely organized purely to advance selfish ic-terests and hesitated at nothing. He said he would not deserve the confidence reposed in him if he kept silent "in the presence of so gigantic a conspiracy against the home, society, and the

He opposes brewers and distillers writing the liquor laws, as he does trusts writing laws to regulate trusts, and says he stands on a square democratic doctrine. His fight is against their dominance in politics, and he has no desire to prevent the use of liquor under conditions which relieve its use of present

> The break for liberty was made about 8 o'clock and was the result of a cleverly planned plot upon the part of the five convicte.

> Two of the convicts were at work in the carpenter shop, and the others were in the tailor shop. A Union Pacific switch-engine had backed into the prison yard. At the sound of the whistle the men dashed into the yard and made toward the engine. Leveling dommy gues at the engineer, the men climbed into the cab and compelled him to reverse his engine.

The engine, with the convicts aboard, rushed through the west gate into the open country, and soon was speeding

When the escape became known, a few mitutes later, the siren whistle at the prison, which can be heard for miles, was sounded as a warning to farmers to be on the lookout. At the same time heavily armed guards were placed at the gates to prevent any further attempt to escape. Other guards started in pur-

When the engine had gone half a mile from the prison the five men jamped off and made for the woods. Two of the men, Olark and Gideon, separated from the others and soon were captured.

WOULD SEND MOTHER TO JAIL. William Murphy, a middle-aged clerk, of Long Island City, N. J., announced yesterday in Flushing Police Ocurt that he did not feel likesupporting his mother, Mary Murphy, who is 85 years old, and calmly suggested that she be sent to the Queens county jail and kept there until ane dies. His brother, Thomas, also a clerk, was present and by his silence gave acquiescence to the proposal, "Do

send your old mether to end her days in jail?" shouted Magistrate Connolly.
"Oertainly," replied Murphy, "I can't take care of her. If there is no place else to send her, I think the county ought to take care of her in jail." "I'll give you and your brother one hour to consider," said the magistrate. "If by the end of that period you have not

THE ALABAMA MINE HORROR. Of the 40 men ent imbed in the Mu'ga mine of the Birmingham Railway, Coal and Iron Company, at Mu'ga, Ale., by an explosion Wednesday night, it is believed that all are dead. The cages in the shaft of the mine were so badly spruog by the force of the explosion that they are useless, and all other means adopted by rescue parties in an eff rt to reach the entombed men have proved

fuille. There are 15 white and 26 colored la

borers in the mine. Following the explosion flames shot up the shaft of the mine for a distance of about 400 fert, and the ground is covered with charred timbers art und the mouth of the shaft. They were blown up from the bot om of a 350 foot shaft by the explosion Every wiedow in the villiage was broken by the explosion.

After the explosion timbers were placed over the mouth of the shaft to prevert a draft, sa it was feared the Interior of the mine might catch fire, but so far as is known there has been no fire. As air was at once pumped into the mine the families of the entombed men are still hopeful that some, if not all, may be rescued alive.
